

### Colour Your World

These sweet Droplets are perfect little hummingbird feeders for any garden. Holds 6 oz. of nectar...**24.00**

### Eco Option

Offer birds our convenient seed logs in this durable, recycled plastic feeder. The roof and screen tray help keep seed dry...**84.00**

### Duck Nesting Basket

Provide a safe nesting spot for mallards. Place in dense vegetation at edge of pond, or on a post, one metre above water's surface...**85.00**

### NyChip Finch Blend

New! A blend of premium nyjer seed and fine hulled sunflower for your finch feeder or thistle sock. Like all of our birdseed, this is a nonGMO blend.

### Nourish and Heal

Try our new line of wild-harvested and handcrafted herbal products from B.C. Teas, salves, and lip balms.

**5.00-14.00**

### Treat Your Feet

Cute socks featuring birds or outdoorsy graphics. Free-spirited, functional and fun!...**16.00**

### Safe and Responsible Birdfeeding

1. Red dye should never be used in hummingbird nectar. It is harmful and not necessary. Nectar = 4 parts water + 1 part white sugar. Or try our safe and nutritious clear nectar mix.
2. Vaseline or oil should never be used on birdfeeder poles. Squirrels can't remove it from their fur, which affects insulation. It is harmful if ingested and very difficult to remove from birds' feathers, resulting in loss of flight.
3. Never offer birdseed treated with hot pepper to discourage squirrels. Capsaicin affects birds' ability to thermo-regulate and may irritate their eyes. Capsaicin is also toxic to bees and other beneficial insects.
